Westley and Wenona,

It sounds like you'll be organizing a regional breakout session for Bristol Bay grantees either on Thursday or Friday (we haven't received the IGAP training agenda yet so I'm not sure which day). In any event, I'm hoping there will be time for me to briefly introduce the IGAP Planning Workbook & Draft Outline for initial feedback from tribal environmental program staff to make sure we're on the right track with the project. Note: we've entered into a contract with Agnew::Beck to develop the workbook based on the RFP released a few weeks ago (another copy attached). I'd also like to briefly introduce Arla Johnson who starts Monday as BBNA's Brownfields Program Manager and give a brief overview of the key elements of the work plan (regional inventory, developing criteria with tribes/others to determine sites that have the highest potential for reuse or redevelopment, etc.). Let me know if this is okay.

I'm also attaching a copy of what I hope is the most current contact information for tribal environmental program staff. There have been some changes (e.g. Scott Anderson/Port Heiden has a new email address and newly hired staff to administer their Brownfields grant; Louie and Maria with the Ekuik Tribal Env Program have changed their email address as has George Anderson with Ivanof Bay, etc.) and the attached file reflects those changes.

Sue
